5.11.P.0**

This policy has been reformatted for placement on Sandia's External Web site.

---

## **Background - 5.11.P.1**

Just-In-Time (JIT) is the supply system used inside SNL that works with established Contractors outside of SNL. These Contractors provide Maintenance, Repair and Operating (MRO) supplies as well as personal computers, peripherals, and accessories in a reliable, timely manner. This policy covers JIT purchase of general purpose low-value MRO items including computer items. Both stock and nonstock items are procured by this method. This policy shall be used to award and administer JIT contracts.

---

# Policy - 5.11.P.2

JIT contracts may be used for MRO items that are:

- commercial off-the-shelf items used by multiple customers,
- commercial off-the-shelf items that are modified per customer request,
- commercial items with long lead times (see return/cancellation policy in 5.11.G),
- customer unique items, and/or
- miscellaneous prepriced services, e.g., maintenance of gas cylinders.
